

HATCON

A new level of control.

Your tools. Connected.

HATCON

Your tools. Connected.

HATCON (Hydraulic Attachment Tools **C**onnectivity) enables next level fleet management by monitoring operating hours, location and service intervals of your tools.

By logging in to My Epiroc, on either your computer, tablet or phone, you'll have access to all your data and get notifications when it's time for service.

HATCON is available factory mounted or as a retrofit kit for premium range breakers and drum cutters.

HATCON

A new level of control.

➤ No tool left behind

Make sure the utilization of your fleet is evenly distributed with position and operating hour monitoring of each tool.

➤ Hassle-free logistics

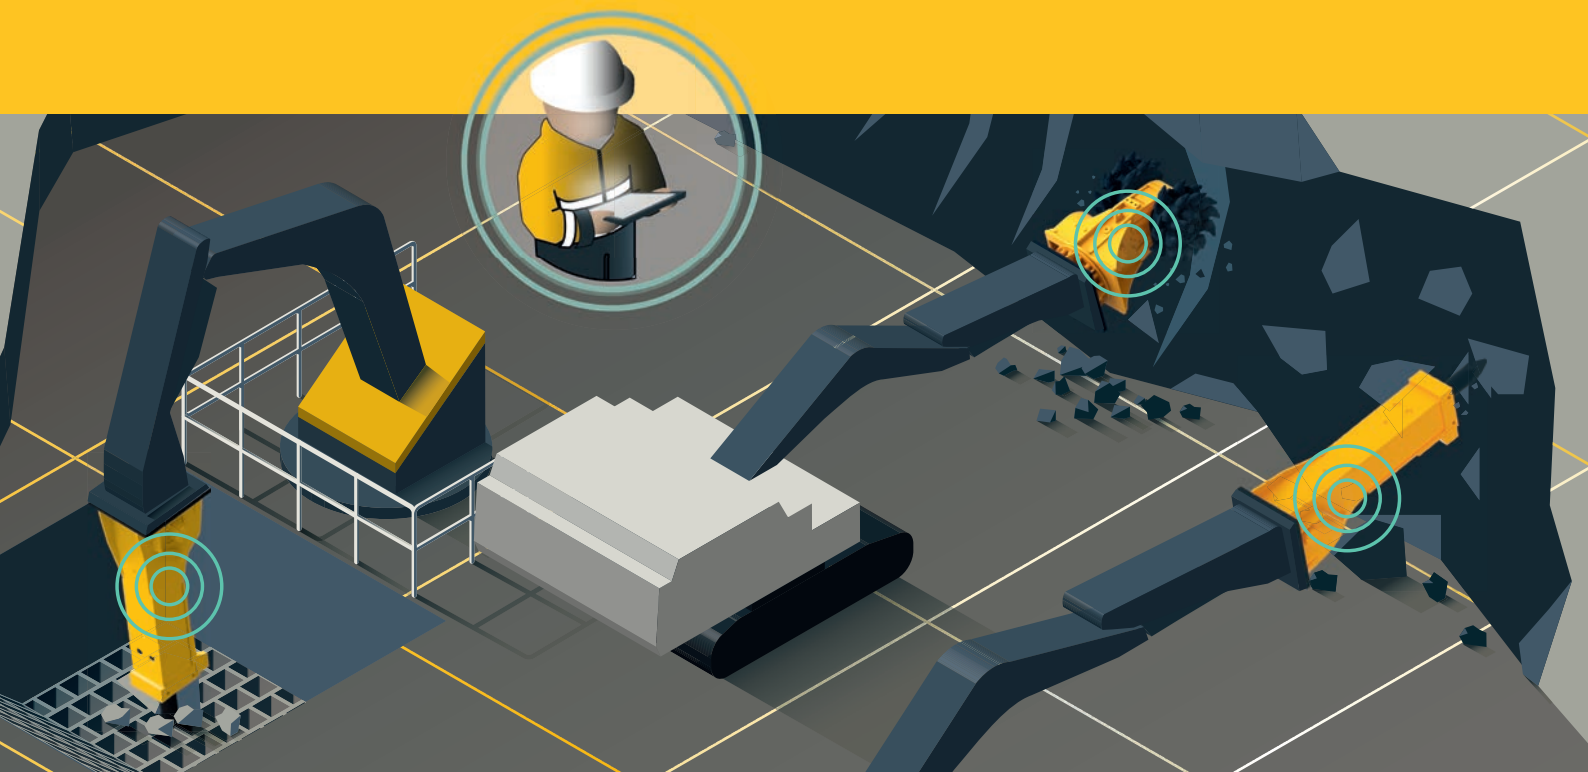

The answer to every "where-is-what" question. GPS position of every tool, right in your phone. Just log in to My Epiroc to stay on top.

➤ Service on time

Your connected tool speaks to you – and to us. So, when it's time for service we already have your parts prepared to minimize downtime.

➤ Protect your investment

Besides alerts about wear part status and service, that will help keep your tool healthy over time, the GPS function strengthens your anti-theft system.

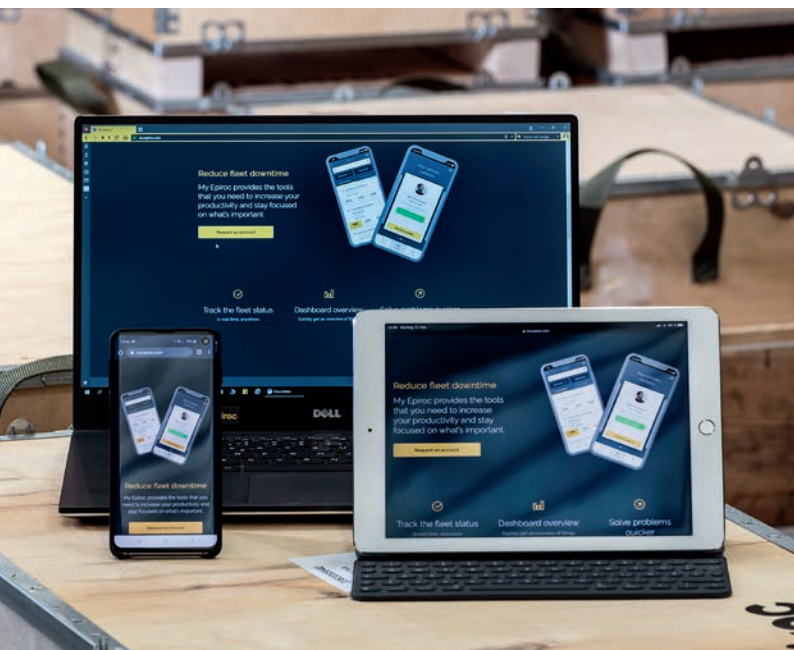

- + The data from HATCON provides a new level of control. Making sure the utilization is evenly distributed, optimizing transport and increasing uptime with pre-planned service stops has never been easier. With connected tools, efficiency and ultimately profitability will increase.
- + The GPS-function is also a good contribution to your anti-theft system.
- + Epiroc is constantly striving towards giving you the solutions you need to succeed today and the technology to lead tomorrow.
- + By adding HATCON to our offer we want to strengthen your business and help you protect your investment.

My Epiroc

Just the right info, at just the right time. With My Epiroc you can focus on your core business and avoid unnecessary downtime.

It helps you optimize your workflow, identify faults and find new solutions to increase efficiency.

You'll get notifications about service, help to organize your tasks and do reports. And of course, with complete protection of your data. From anywhere, at any time, from any device and even off-line.
